Who are we?

Reach & Respond provides a range of services to help you stay happy, healthy and independent in your own home. Independence is something we all cherish and want to keep as long as possible.

When circumstances change, you may need some extra support to stay safe while living independently in your home. With one in three people over 65 having a fall each year, it's important to have a plan in place that will get you the help you need in an emergency. Reach & Respond provides you and your family with the reassurance that no matter what the emergency or when it happens, someone will be there to help. With just the push of a button, our response team are here for you 24 hours a day, 365 days a year.

Our packages are flexible and completely tailored to you. Our team of experts will work with you and your loved ones to create a solution that meets your needs, with the goal of giving you the confidence to enjoy living at home with all the freedom you desire.

Who can benefit from Reach & Respond?

Reach & Respond offers support and peace of mind to individuals and families, of any age, particularly people who:

- Live alone
- Are elderly or vulnerable
- Are caring for someone
- Are at risk of falling or are less mobile
- Are unwell
- Are at risk of seizures
- Have learning difficulties
- Are living with dementia
- Have recently come out of hospital
- Have no regular visitors.

How does it work?

Reach & Respond's technology-enabled equipment provides you with support at home, keeping you safe in the knowledge help is available 24 hours a day, 365 days a year. A discreet, compact alarm unit is set up in your home, through which we can communicate with you in the event of an emergency. You'll be given a lightweight pendant (to be worn around the neck or wrist) with a button you can press to alert us if you need help – whether you feel unwell, have fallen or need medical assistance.

Once you're connected to our 24/7 control centre, our helpful team of advisors will speak to you and dispatch the appropriate response for your emergency. They will know who you are and where you live, even if you are unable to speak. We also provide a range of telecare sensors which can automatically detect an emergency and alert us. This means we can send the right response even if you are unable to contact us through your pendant.

All you need to join Reach & Respond is:

An electrical wall socket

Our latest technology uses a SIM card to make a call to our call centre so you do not need a landline
